Software Developer

Objective

Dynamic and detail-oriented Full Stack Developer with 1.8 years of experience in building responsive, scalable, and user-friendly web applications. Skilled in frontend and backend development using HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Node.js, and Express.js. Proficient in database management with SQL and MySQL, with hands-on experience in developing REST APIs, integrating databases, and creating modern, responsive user interfaces. Passionate about writing clean, efficient, and maintainable code while collaborating with teams to deliver high-quality solutions that meet business objectives and enhance user experience.

Professional Summary

- Over 1.8 years of experience as a Full Stack Developer specializing in frontend and backend development with a strong foundation in modern web technologies.
- Proficient in developing dynamic, responsive, and interactive user interfaces using React.js, Next.js, JavaScript, HTML, CSS, and Tailwind CSS.
- Expertise in backend development with Node.js and Express.js, building scalable RESTful APIs and handling server-side application logic efficiently.
- Skilled in database design and management using SQL and MySQL, ensuring optimized data storage, querying, and performance.
- Experienced in creating full-stack web applications with responsive UI, authentication systems, API integrations, and modern development practices.
- Strong understanding of clean code architecture, reusable components, and performance optimization for scalable and maintainable applications.
- Adept at collaborating with cross-functional teams to deliver high-quality software solutions aligned with business and user requirements.

Technical Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js

Database: SQL, MySQL,

Version Control: Git, GitHub

Backend: Node.js, Express.js

Languages: JavaScript, TypeScript

Css Frameworks: Tailwind CSS, Bootstrap, Material UI

Work Experience

Senwell | Software Developer

Acto 2024 - Present

Projects:

- **Donorly**
 - **Description:** Developed and deployed a scalable donor management platform for a USA-based client, focused on managing institutional and organizational funds efficiently. The application includes secure fund tracking, donor and organization management, role-based authentication, real-time data handling, and responsive dashboards built using React.js, Next.js, Node.js, Express.js, SQL, and MySQL.
 - **Responsibility:**
 - Developed responsive and dynamic user interfaces using React.js, Next.js, JavaScript, HTML, CSS, and Tailwind CSS.
 - Built scalable backend APIs and server-side functionalities using Node.js and Express.js.
 - Designed and managed SQL/MySQL databases for secure fund, donor, and organization data management.
 - Implemented authentication and role-based access control for secure user management.
 - Developed dashboards and reporting modules for tracking institutional and organizational funds.
 - Integrated REST APIs and optimized application performance for scalability and responsiveness.
 - Collaborated with cross-functional teams and clients to deliver high-quality and business-focused solutions.
 - **Technologies:** Javascript, React.js, Next.js, Node.js, Express.js, HTML, CSS, Tailwind CSS

Datapro | Full-Stack Developer

July 2024 - Aug 2025

Projects:

- **Skyfall**
 - **Description:** An event management platform where administrators can create and manage events for customers. The platform features high-performance dashboards, secure authentication, real-time event tracking, and scalable event management functionalities built with React.js, Next.js, Node.js, Express.js, SQL, and MySQL, delivering seamless user experiences, optimized performance, and efficient administrative control.

- **Responsibility:**
 - Developed responsive and interactive frontend interfaces using React.js, Next.js, HTML, CSS, JavaScript, and Tailwind CSS.
 - Built scalable backend APIs and server-side functionalities using Node.js and Express.js.
 - Designed and managed relational databases using SQL and MySQL for efficient data handling and storage.
 - Implemented authentication, authorization, and CRUD operations for event and user management.
 - Integrated real-time functionalities and live data updates to enhance user experience and system responsiveness.
 - Optimized application performance, API handling, and database queries for better scalability and maintainability.
 - Collaborated with team members to deliver high-quality and user-friendly web solutions within project timelines.
- **Technologies:** Javascript,React.js,Next.js,Node.js,Express.js,HTML,CSS,TailwindCss

Personal Attributes

Date of Birth: 19 July 2003

Gender: Male

Languages Known: English, Marathi, and Hindi.

Hobbies: Playing Cricket, Reading Books.
